

BREADANDBUTTERWORKS

Because they are better together.

say CHEESE cheong fun!

We are a team of photographers and we firmly believe in marriage. We love life and the little moments in it, especially when we get the feeling of freedom and the possibility to enjoy it. Exploring nature is our passion and we love the ocean, sunsets, and all things beautiful. We're obsessed with endless sunsets, so we chase the sun like how we would live life to the fullest.

Our works are what people would describe - Lily-white, airy and bright. If you are in love with timeless colours like this, drop us a note and we'll be "craving" to shoot for ya!

MEET THE PHOTOGRAPHERS

A S H

Have you ever wondered if you were able to relive those ephemeral moments? I am a strong believer of being in the moment, one where we are both physically and mentally aware of everything transpiring before our very eyes. Being a photographer, it allows me to help preserve those fleeting moments that most of us do not want to miss. A photograph is a language that is understood anywhere in the world and I aim to share the genuine emotions I help to preserve to all who put their trust in me.

What do I enjoy photographing the most?

Buildings, industrial, container yards, forests. Especially emotions. Nothing beats having to capture the first tear of a groom to his beautiful wife on their wedding day, or even the joy and laughter of loved ones. From intimate sessions to weddings, these moments involve the portrayal of genuine warm emotions which I absolutely adore.

A R I E L L E

I fell in love with photography at a very young age as it was my favourite family activity. With my Kodak point and shoot film camera in hand, I could capture core moments with my family and that amazes me till today. To me, photography is more than just taking beautiful photos. It is about capturing significant moments of raw and real emotions between human beings. Every gaze, every touch and every smile tells a story and showcases the love between people and tells stories beyond what words can.

I love wedding photography as it is truly the best time to capture the love couples have for each other. The energy they exude gives me a sense of joy and happiness that words cannot describe and as a bride before, I truly understand how wedding photography serves as a time capsule for couples, allowing them to relive the most beautiful day of their lives again and again.

What do I enjoy photographing the most?

I love capturing raw and candid moments in between or after poses that shows off the true personalities of the couples! Rooftops, favourite cafes, nature parks etc, I love places that are significant to the couples and are able to tell a piece of their stories.

PREWEDDING

Kaya

1.5 hours of photoshoot
1 location
